SUBJECT INDEX FOR VOLUME 29, 1969

A

Abstracts
  National Meeting, A.S.A.S., 103
Acetohydroxamic acid
  Urea utilization in wethers receiving the urease inhibitor, 88
Adrenal insufficiency
  Influence of induced, and stress on porcine plasma and muscle characteristics, 882
Age at weaning
  Influence of, and kind and protein content of starter on rate and efficiency of gain of growing swine, and carcass characteristics, 309
Amino Acids
  Biosynthesis of, by ruminal microorganisms, 797
Antibiotics
  Ruminal volatile fatty acid concentrations in steers fed, 509

B

Beef cattle
  Selection of, for single traits, 225
Beef muscle
  Effect of postmortem aging time and temperature on, attributes, 398
Beef production
  Estimation of efficiency of, 862
Beef roasts
  Response of, differing in finish, location and size to two rates of heat application, 283
Biuret
  Urea *versus*, in a roughage diet for steers, 816
Blood ammonia
  Comparative, procedures in ruminants, 51
Blood components
  Effect of energy intake upon levels of certain blood components in young beef heifers, 992
Blood plasma
  Effect of diet on the concentration of free amino acids, ammonia and urea in the rumen liquor and, of the sheep, 628
Body composition
  Effects of starter protein level on performance and, of pigs, 433
  Estimation of, in young calves, 426
Bone muscle relationships
  In the bovine carcass, 294
Bovine lipids
  Influence of sex, liveweight and anatomical location of, III. Fatty acid composition of the neutral and phospholipid fractions from three muscles, 288
Bovine luteal function
  Modification of, by exogenous oxytocin and progesterone, 25
Bovine muscles
  Relationship of intracellular proteins and muscle pigments to the tenderness of, 423
  Relationship of water binding and pH to tenderness of, 268
Bovine tubular genitalia
  Biochemical and morphological changes in, during the estrous cycle, 35

C

Calcium, dietary
  Effects of, and zinc on calcium, phosphorus and zinc retention in swine, 900
^{14}C
  Incorporation of, from labeled alfalfa into rumen bacterial and volatile fatty acid carbon and rumen removal rate of fiber and soluble fractions, 948
^{14}C-labeled alfalfa
  Rumen removal rates of some chemically defined fractions of, 746
^{45}Ca
  Distribution of parenterally administered, in bones of growing pigs, 298
Carcass characteristics
  Comparison of feedlot performance and, of half-sib bulls, steers and heifers, 687
  Effects of protein level sequence and kind of starter on rate and efficiency of gain of growing swine, and on, 303
  Feedlot performance and, of young bulls and steers castrated at four ages, 887
  Sex and weight adjustments for beef, 404
Carcass components
  Genetic variation in total and differential growth of, in beef cattle, 233
Carcass composition
  Influence of creep feeding and post-weaning Diethylstilbestrol implantation on post-weaning weight gain and, of beef bulls, 75
  Predicting, of ewe, wether and ram lambs, 567
Carcass traits
  Heritability of, in lambs, 251
Career opportunities
  Domestic, and the future, 256
  Education and opportunities in animal and dairy science, foreign, 263
Cellulose and hemicellulose
  Comparative study of the digestibility of forage, in ruminants and nonruminants, 11
Cesium-137
  Transfer of fallout, from feed to meat of cattle, 695
Cholesterol levels, tissue
  Effect of dietary fat, protein, cholesterol and ascorbic acid on performance, serum and, and serum lipid levels of swine, 700
Chromic oxide
  Excretion of, administered in paper to steers fed prairie hay, 365
  Recovery of, administered in paper to grazing steers, 361
Committee reports, 211
Confinement
  Effect of previous type of, on length of adjustment for barrows in metabolism trials, 585
Copper
  Further trials on the response of early-weaned pigs and rats to diets supplemented with tylosin and high levels of, 573
Corn maturity
  I. Composition of corn grain of various maturities and test weights, 977

Corn maturity—Cont.
II. Digestibility of nutrients and energy value of corn grain of various maturities and test weights, 983
III. Composition, digestibility of nutrients and energy value of corn cobs and ear corn of four maturities, 987
Corn, normal
Nutritive value and digestibility of opaque-2 and, for growing pigs, 921
Corn oil
Effect of pre- and post-ruminal administration of, on ovine fat, 874
Corn silage
Effect of ensiling time on distribution and losses of nitrogen in, treated with limestone and NPN, 57
Vitamin A, and raw soybeans for finishing steers in drylot, 940
Corn silages
Chemical characteristics of *in vitro*, 769
Intake and digestibility of, of different maturities, varieties and plant populations, 512
Corpus luteum
Influence of induced uterine infection at various stages of the estrous cycle on the, of the ewe, 616
Thyroid status and life span of the, in the ewe and rat, 479
Cottonseed hulls
Digestibility and utilization of, by cattle, 773
Cow size
Efficiency of production and, in beef cattle, 373
Crossbred beef cows
Preweaning production differences among reciprocal, 857
Cutability
Ovine carcass, 272
Cystine
Replacement value of, for methionine for the young pig, 581

D

Diet
Effect of, on the concentration of free amino acids, ammonia and urea in the rumen liquor and blood plasma of the sheep, 628
Effect of, form and emulsifying agents on fat utilization by young pigs, 320
Salivary and ruminal characteristics, respiration rate and EKG patterns of steers fed a pelleted or ground roughage, at two levels of intake, 464
Dietary iron
Influence of graded levels of, as ferrous sulfate, on performance and tissue mineral composition of steers, 496
Diethystilbestrol implantation
Influence of creep feeding and post-weaning, on post-weaning weight gain and carcass composition of beef bulls, 75
Diets
Further trials on the response of early-weaned pigs and rats to, supplemented with tylosin and high levels of copper, 573
Comparison of *Opaque-2* corn, milo and wheat in, for finishing swine, 16
Ovine phosphatic urolithiasis as related to the phosphorus and calcium contents and acid-base-forming effects of all concentrate, 649
Digesta of sheep
Fed different hay-grain ratios, 62
Dystocia
In reciprocally crossed Angus, Hereford and Charolais cattle, 245

E

Educational needs
Meeting the, of future animal science students, 259
Embryo, early sheep
Local effect of the, upon uterine motility, 48
Emulsifying agents
Effect of diet form and, on fat utilization by young pigs, 320
Energy intake
Effect of, upon the levels of certain blood components in young beef heifers, 992
Reproductive performance of 2-year-old Hereford and Angus heifers as influenced by pre- and post-calving, 719
Energy requirements
Calculated, of lactating and non-lactating Hereford cows, 823
Energy values
Digestible and metabolizable, for pigs of diets based on high-test molasses or final molasses and sugar 578
Ensiling time
Effect of, on distribution and losses of nitrogen in corn silage treated with limestone and NPN, 57
Environment
Effects of inbreeding and, on fertility of beef cattle matings, 528
Environmental corrections
Effect of, on repeatability of weaning weight in Angus, 534
Environmental factors
Wool production of Western and Dorset x Western ewes as influenced by certain, 869
Equine intestine
Multiple fistulations of the large, 916
Estradiol, 17 β
Suppression of ovine luteal function by, 476
Estrogen
Identification and excretion of, in urine during the estrous cycle of the ewe, 934
Estrous cycle
Biochemical and morphological changes in bovine tubular genitalia during the, 35
Ewe oviduct fluid
Effects of season, mating and pregnancy on the volume and protein content of, 727

F

Fat deposition
Influence of weight and nutrition upon muscle growth and intramuscular, in Holstein steers, 410
Fat utilization
Effect of diet form and emulsifying agents on, by young pigs, 320
Fatty acid
Ruminal volatile, concentrations in steers fed antibiotics, 509
Feed intake, restricted
Effect of, on performance, carcass measurements, flavor and tenderness of Hampshire and Palouse swine, 417
Feedlot performance
And carcass characteristics of young bulls and steers castrated at four ages, 887

Feedlot performance—Cont.
Comparison of, and carcass characteristics of half-sib bulls, steers and heifers, 687
Influence of season, sex and hormonal growth stimulants on, of beef cattle, 490
Ferrous carbonate
Efficacy of, as a hematinic for young swine, 706
Ferrous sulfate
Influence of graded levels of dietary iron, as, on performance and tissue mineral composition of steers, 496
Fertility
Attempts to induce, in postpartum sows, 20
Effects of inbreeding and environment on, of cattle matings, 528
Financial statement of the A.S.A.S., 209
Fish meal
Effects of, on nutrient digestibility and rumen fermentation of high-roughage rations for cattle, 972
Fistulation, multiple
Of the equine large intestine, 916
Floors, slotted
Space allowances for lambs on, 638
Forage, digestibility of
A review of techniques used to estimate the *in vivo*, grazed, 757
Fructose
Glucose and, in the fetal and newborn pig, 906

G

Gain, rate and efficiency of
Cooperative regional studies with growing swine Effects of source of ingredients, form of diet and location on, of growing swine, 927
Gestations, experimentally prolonged
Neonatal thermostability and body composition of piglets from, 35
Glucose
And fructose in the fetal and newborn pig, 906
Growth
And reproductive performance of bulls and heifers fed purified and natural diets. III. Blood proteins, glucose, amino acids and hair amino acid analysis (42–210 days of age), 81
Of Yorkshire suckling pigs, 330
Comparison of the, performance of lambs from Western and Dorset x Western ewes, 521
Environmental influences on, rate and grade of yearling beef cattle, 541

H

Heat application
Response of beef roasts differing in finish, location and size to two rates of, 283
Heritability
Of carcass traits in lambs, 251
Hormone, growth
Level in the blood of dwarf and normal Hereford cattle, 384
Hormone secretion rate
Estimation of growth hormone secretion rate in cattle, 341
Housing environments
Response of growing-finishing swine to different, during winter seasons, 451

I

Inbreeding
Effects of, and environment on fertility of beef cattle matings, 528

K

Kikuyu grass (Pennisetum clandestinum)
Effect of supplemental protein and energy levels on the utilization of, 634

L

L(+)-Lactate-U-^{14}C
Factors affecting metabolism and absorption of, by bovine rumen epithelium *in vitro*, 354
Lactic acidosis
And renal function in sheep, 612
Lipid levels
Effects of elevated ambient temperature on, and cholesterol metabolism in the ram testis, 469
Luteal function
Suppression of ovine, by 17β-Estradiol, 476

M

Magnesium levels
Effects of feeding different, to drylot-fed lactating beef cows, 959
Manganese and magnesium
Effects of dietary levels of, on performance of growing-finishing swine raised in confinement and on pasture, 439
Mating-type comparisons
Among crossbred beef cattle for preweaning traits, 389
Meat yields
From Holstein veal calves, 6
Metabolism
Effect of elevated ambient temperature on lipid levels and cholesterol, in the ram testis, 469
Effect of previous type of confinement on length of adjustment for barrows in, trials, 585
Of naturally occurring and ^{14}C-labeled Triglycerides in the sheep, 738
Metabolites
Secretion of, of vitamin A and B-carotene in the bile of sheep, 504
Metabolizable energy
Of finishing beef cattle rations with and without stilbestrol, 967
Methionine
Replacement value of cystine for, for the young pig, 581
Milk constituents
Genetic study of, in purebred and crossbred dairy cattle, 671
Milk, yield and composition of
Estimation of, produced by grazing beef cows, 606
Molasses
Digestible and metabolizable energy value for pigs of diets based on high-test, or final, and sugar, 578
Monte Carlo studies
Of selection and inbreeding in swine. I. Genetic and phenotypic trends, 678

Muscle characteristics
Association of some porcine, with postmortem temperature and plasma 17-Hydroxycorticosteroid levels, 891
Influence of induced adrenal insufficiency and stress on porcine plasma and, 882
Muscle growth
Influence of weight and nutrition upon, and intramuscular fat deposition in Holstein steers, 410

N

News and notes, 224, 370, 519, 668, 848, 1053
Nitrogen
Digestion in different segments of the equine digestive tract, 332
Effect of ensiling time on distribution and losses of, in corn silage treated with limestone and NPN, 57

O

Oat grass
Effect of hydroponically produced, on ration digestibility of cattle, 783
Opaque-2
Nutritive value and digestibility of, and normal corn for growing pigs, 921
Opaque-2 corn
Comparison of, milo and wheat in diets for finishing swine, 16
Ovarian responses
Short-term, to some pituitary hormones infused *in vivo* in pigs and sheep, 711
Oviduct fluid
Effects of season, mating and pregnancy on the volume and protein content of ewe, 727
Ovine fat
Effect of pre- and post-ruminal administration of corn oil on, 874
Oxytocin and progesterone
Modification of bovine luteal function by exogenous, 25

P

Paper
Nutritive value of sheep rations containing various levels of, 642
Phosphatic urolithiasis, ovine
As related to the phosphorus and calcium contents and acid-base-forming effects of all-concentrate diets, 649
Pig, perinatal
Changes in the, 325
Pigments, muscle
Relationship of intracellular proteins and, to the tenderness of bovine muscles, 423
Pituitary hormones
Short-term ovarian responses to some, infused *in vivo* in pigs and sheep, 711
Plasma amino acid
Effect of protein level during pregnancy and lactation on, profile of swine, 429
Plasma 17-hydroxycorticosteroid levels
Association of some porcine muscle characteristics with postmortem temperature and, 891
Plasma, porcine
Influence of induced adrenal insufficiency and stress on, and muscle characteristics, 882
PMS, injections of
Ovulatory response of the ewe to repeated, 457
Polyethylene glycol
Effect of quantity of rumen dry matter and other factors on determinations of rumen fluid volume with, 69
Poplar bark
Chemical composition and nutritive value of, 653
Porcine body and carcass
Potassium content of the, at 23, 46, 68 and 91 kilograms live weight, 547
Portion, edible
Body measurements, subjective scores and estimates of certain carcass traits as predictors of, in beef cattle, 557
Potassium content
Of the porcine body and carcass at 23, 46, 68 and 91 kilograms live weight, 547
Predictors
Body measurements, subjective scores and estimates of certain carcass traits as, of edible portion in beef cattle, 557
Preweaning traits
Mating-type comparisons among crossbred beef cattle for, 389
Production
Efficiency of, and cow size in beef cattle, 373
Production differences
Preweaning, among reciprocal crossbred beef cows, 857
Protein
Effect of supplemental, and energy levels on the utilization of Kikuyu grass (Pennisetum Clandestinum), 634
Protein content of starter
Influence of age at weaning and kind and, on rate and efficiency of gain of growing swine, and carcass characteristics, 309
Protein, crude
Effect of excess levels of dietary, on carcass development in swine, 598
Protein level
Effect of, during pregnancy and lactation of plasma amino acid profile of swine, 429
Protein level sequence
Effects of, and kind of starter on rate and efficiency of gain of growing swine, and on carcass characteristics, 303
Protein level, starter
Effects of, on performance and body composition of pigs, 433
Proteins, intracellular
Relationship of, and muscle pigments to the tenderness of bovine muscles, 423
Puberty
In crossbred and straightbred beef heifers on two levels of feed, 602
Puberty, delayed
Induction of heat, ovulation and fertility in gilts with, 39

R

Ration digestibility
Effect of hydroponically produced oat grass on, of cattle, 783
Rations, beef cattle
Metabolizable energy of finishing, with and without stilbestrol, 967

Rations, high energy
Effects of adding low levels of roughages or roughage substitutes to, for fattening steers, 345
Rations, high-roughage
Effects of fish meal on nutrient digestibility and rumen fermentation of, for cattle, 972
Relationships, nutritional and environmental
With lambs, 619
Renal function
Lactic acidosis and, in sheep, 612
Reports from representatives of the society, 218
Reproductive performance
Of 2-year-old Hereford and Angus heifers as influenced by pre- and post-calving energy intake, 719
Rice hulls
Utilization of, in cattle finishing rations, 792
Roughage sources
And levels in steer rations, 1001
Roughages
Effects of adding low levels of, or roughage substitutes to high energy rations for fattening steers, 345
Rumen
Method for isolating the, of sheep *in situ*, 661
Removal rates of some chemically defined fractions of ^{14}C-labeled alfalfa, 746
Rumen fluid volume
Effect of quantity of rumen dry matter and other factors on determinations of, with polyethylene glycol, 69
Rumen liquor
Effect of diet on the concentration of free amino acids, ammonia and urea in the, and blood plasma of the sheep, 628
Rumen motility
Effects of environmental temperature controlled feeding and fasting on, 734
Rumen removal rate
Incorporation of ^{14}C from labeled alfalfa into rumen bacterial and volatile fatty acid carbon and, of fiber and soluble fractions, 948
Ruminal ammonia
Influence of, on the salivary flow of cattle, 830
Ruminal microorganisms
Biosynthesis of amino acids by, 797
Ruminant diets
Studies on sodium bentonite in, containing urea, 777

S

Salivary flow of cattle
Influence of ruminal ammonia on the, 830
Selenium
Performance and deficiency symptoms of young pigs fed diets low in vitamin E and, 912
Selenium deficiencies
Effects of vitamin E and, in sheep fed a purified diet during growth and reproduction, 808
Semen quality
Tonometer for measuring testicular consistency of bulls to predict, 483
Serum lipid levels
Effect of dietary fat, protein, cholesterol and ascorbic acid on performance, serum and tissue cholesterol levels and, of swine, 700
Sheep rations
Nutritive value of, containing various levels of paper, 642
Sodium bentonite
Studies on, in ruminant diets containing urea, 777
Sorghum grains
Net energy of regular and waxy, for finishing steers, 997
Soybeans, raw
Vitamin A, corn silage and, for finishing steers in drylot, 940
Space allowances
For lambs on slotted floors, 638
Steer rations
Roughage sources and levels in, 1001
Stilbestrol
Metabolizable energy of finishing beef cattle with and without, 967
Stimulants, hormonal growth
Influence of season, sex and, on feedlot performance of beef cattle, 490
Studies, cooperative regional
With growing swine. Effects of source of ingredients, form of diet and location on rate and efficiency of gain of growing swine, 927
Style and Form for Journal of Animal Science, 850
Sugars
Absorption and utilization of, by the baby pigs, 444

T

Temperature, elevated ambient
Effect of, on lipid levels and cholesterol metabolism in the ram testis, 469
Testicular growth
And related sperm output in dairy bulls, 41
Tetany
Induction of, in cattle, 99
Thermostability, neonatal
And body composition of piglets from experimentally prolonged gestations, 335
Thyroid status
And life span of the corpus luteum in the ewe and rat, 479
Time and temperature, aging
Effect of postmortem, on beef muscle attributes, 398
Tissue fatty acids
In normal and myopathic lambs, 94
Tonometer
For measuring testicular consistency of bulls to predict semen quality, 483
Tylosin
Further trials on the response of early-weaned pigs and rats to diets supplemented with, and high levels of copper, 573

U

Ulcers, esophagogastric
Dietary factors affecting the development of, in swine, 591
Urea
Versus biuret in a roughage diet for steers, 816
Urea toxicity
Studies in the bovine, 786
Urea utilization
In wethers receiving the urease inhibitor acetohydroxamic acid, 88
Uterine capacity
At two stages of gestation in gilts following embryo superinduction, 30

Uterine infection
Influence of induced, at various stages of the estrous cycle on the corpus luteum of the ewe, 616
Uterine motility
Local effect of the early sheep embryo upon, 48

V

Variation, genetic
In total and differential growth of carcass components in beef cattle, 233
VFA production
In the rumen of sheep fed limestone and urea treated corn silages, 839
Vitamin A
Corn silage and raw soybeans for finishing steers in drylot, 940
Vitamin A and B-carotene
Secretion of metabolites of, in the bile of sheep, 504
Vitamin E
Effects of, and selenium deficiencies in sheep fed a purified diet during growth and reproduction, 808
Performance and deficiency symptoms of young pigs fed diets low in, and selenium, 912

W

Weaning weight
Association between day of birth and corrected, in beef cattle, 1
Effect of environmental corrections on repeatability of, in Angus, 534
Weight and nutrition
Influence of, upon muscle growth and intramuscular fat deposition in Holstein steers, 410
Weight gain
Influence of creep feeding and post-weaning diethylstilbestrol implantation on post-weaning, and carcass composition of beef bulls, 75
Wool production
Of Western and Dorset x Western ewes as influenced by certain environmental factors, 869

Z

Zinc retention
Effects of dietary calcium and zinc on calcium phosphorus and, in swine, 900

AUTHOR INDEX FOR VOLUME 29, 1969
